

GREEN INITIATIVE 2008

2/08

DeFOREST Enterprises is more committed than ever to providing environmentally sensitive innovative products and solutions as the chemical industry moves toward greener pastures.

In this context we are excited to confirm that the following products are now listed in the www.cleangredients.org on-line database:

DeTERIC LP: high foaming amphoteric surfactant offering excellent detergency, wetting and foam stability in the presence of oil and grease.

DeTERIC CP-Na-38: similar to DeTERIC LP but with higher foam, brine stability and increased alkali tolerance.

DeTROPE SA-45: chlorine stable, anionic hydrotrope offering very low, fast breaking foam.

DeSULF GOS-P60WCG: versatile, nonionic high foaming alkylpolyglucoside recommended for use as the primary surfactant in acid or alkaline systems. Good solubilizing properties and excellent caustic stability.

Stay tuned for additional new and innovative readily biodegradable product launches throughout 2008!!
