

***Formulary, Chlorinated Formulations***

**Industrial Chlorinated Cleaner (Moderate Foam)**

**CHLOR-9**

DeSULF SO-LF33 affords detergency and foaming characteristics to this industrial chlorinated cleaner. DeTERGE CS-45LF provides detergency and wetting properties.

<u>Ingredient</u>	<u>% by Weight</u>	<u>Function</u>
1. DI water	52.0	Diluent
2. NaOH (50%)	5.0	Alkalinity
3. Sodium Hypochlorite (~12.5%)	35.0	Oxidizer
4. DeSULF SO-LF33	5.0	<b>Detergency, Foam</b>
5. DeTERGE CS-45LF	3.0	<b>Detergency, Wetting</b>

**Procedure**

Add ingredients in the order listed above, solubilizing each component before the addition of the next. After final addition, mix until homogenous.

**Usage Level**

May be used "as is" or diluted at 5:1 with water. This formulation may also be used at elevated temperatures. Do not mix with ammonia or other household cleaners.

**Product Properties**

Appearance: Clear, light yellow liquid  
pH (as-is): >12.5
