

DeIONIC C-18

DeIONIC C-18 is a 100% active, mixed chain length nonionic alcohol ethoxylate suggested for use in solid and block formulations.

SPECIFICATIONS

Appearance @ 25°C:	Off white flakes
Gardner Color:	1 max.
Melting Point (°C):	55°C – 65°C
% Moisture:	1% max.
Neutralization Number:	1.0 max.

SOLUBILITY DeIONIC C-18 is soluble in water, alcohols and glycols. It is insoluble in most solvents and oils.

TYPICAL PROPERTIES

- Moderate foam
- High melting point
- Acid and alkali stable
- Approved for use as inert in non-food pesticide formulations
- Dispersant
- Detergency
- Dissolution control

APPLICATIONS

- Toilet bowl or urinal block cleaners
- Dry blended detergents
- Solid or block hard surface cleaners
- Pigment and dye dispersant
- Mold release agent
- Water based lubricant
