

DePHOS 8028FA

DePHOS 8028FA is a low-to-moderate foaming, anionic phosphate ester in the acid form, based on an aliphatic ethoxylated alcohol.

SPECIFICATIONS

Appearance @ 25°C:	Clear to slightly hazy liquid
% Activity:	99% min.
Color (Gardner):	3 max.
% Moisture:	1.0 max.
Acid Value II (pH 9.0-9.5):	175 – 210

SOLUBILITY DePHOS 8028FA is dispersible in water and oils, and soluble in most polar and aromatic solvents.

TYPICAL PROPERTIES

Density @ 25°C ~1.06 g/ml

- Excellent wetting properties
- Low to moderate foam
- Dispersant
- Corrosion and scale inhibitor
- Emulsifier
- Biodegradable

APPLICATIONS

- Acid cleaners
- Scouring agents
- Synthetic cooling and cutting fluids
- Emulsion cleaners
- Textile wetting agent
- Dry cleaning detergents
- Pigment dispersant
