

## DeTERIC LF-Na-50

**DeTERIC LF-Na-50** is a salt free, mixed short chain, partially neutralized propionate. This amphoteric surfactant is an effective hydrotrope with excellent wetting properties.

### SPECIFICATIONS

Appearance @ 25°C:	Clear amber liquid
Color (Gardner):	8 max.
% Solids:	50.0 – 55.5
pH (10% in DI water):	7.5 – 10.0

**SOLUBILITY** DeTERIC LF-Na-50 is soluble in water, glycols and alcohols. It is insoluble in oils and most solvents.

### TYPICAL PROPERTIES

Density @ 25°C ~1.08 g/ml

- Acid and alkaline stable
- Detergency
- Hydrotrope for nonionics
- Excellent wetting
- Low to moderate foam
- Low or high temperature stability
- Biodegradable

### APPLICATIONS

- Low foam alkaline cleaners
- Spray tank cleaners
- High temperature cleaners
- Steam cleaners
- Acid pickling
- Low foam acid cleaners
- Hard surface cleaners
- Oven cleaners
